## S-3 single screen

the ultimate mobile  
screening system

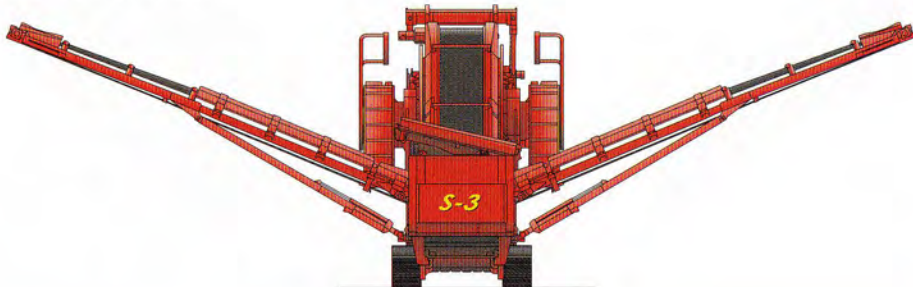

The newest member of the S-Series is a single screen-box screener that uses the same state of the art design technology to construct a screener for today's requirements.

Perfect for the quarry or recycling operation where durability, production and mobility are paramount. The S-3 encompasses such features as:

1. Spreader plate - this is of unique Extec design to spread material across the full width of the screening facility while maintaining the velocity of the material particles.
2. Chassis - this is of the most modern computer assisted design capable of withstanding the stresses generated by high speed highway towing or track slewing over the roughest of terrain.
3. Extec's unrivalled high frequency screen-box designed for easy change of screen meshes and unsurpassed screening efficiency.

Other features include: remote control\* tipping grid, high frequency vibrating grid\*, chevron belted for reduced spillage, large capacity hopper, on-line shredder\* and many, many more.

\* optional extras
